K Ummerly : Northern Italy (World Travel Map) before purchasing it in order to gage whether or not it would be worth my time, and all praised Northern Italy (World Travel Map):

3 of 3 people found the following review helpful. Northern Italy road mapBy Thornton ClarkThe folding very large scale road map of northern Italy by Kummerly+Frey is by far the best among many publishers. We have used earlier editions of this map many times and look forward to using the new one this summer.Only problem is that has the name of the "author" (which is really the publisher) spelled incorrectly.Thornton ClarkMontgomery, Alabama

Make the best of your trip to Northern Italy with the Kimmerly-Frey road maps; the best way to plan your journey, to prepare your itinerary, and to travel independently in this part of the country, from the Swiss border to Rome. Inset maps of Rome, Milan, Florence, Genova, and Turin; Place name index; Driving distances chart. The legend is in English, Italian, French, German, Spanish, and Dutch.
