I got this for a visit to Norway planned for later this year. Due to its size I will use it to familiarize myself with the country before traveling rather than to take it along. If I was traveling by car, rather than boat and train, this would be absolutely a great map to have while driving. High quality paper and production. Well worth the cost.4 of 4 people found the following review helpful. So much better than the Michelin onesBy trughouseThis is THE map company to use for all European countries. So much better than the Michelin ones.3 of 3 people found the following review helpful. GoodBy Gail M. TangenVery good - a bit broken up but allows for greater detail - of the choices available would definitely recommend this one
