I'm going to LA as a tourist (for the 10th time) and was hoping to discover some offbeat places to go. This book is not helpful. It is basically a book version of google maps. Detailed maps of obscure neighborhoods with listings of retailers and coffee shops, etc. The genius "entrepreneurs" behind this apparently decided he could make some money by packaging google maps into a book with a hipster black cover and cool name. I regret that I fell for this but I did. Went straight into the trash.0 of 0 people found the following review helpful.
