Its been lived, tried and tested by my wife and me during our first three years in Gotham. If we didnt do it in the City then it didnt make it in the book. Lets make America Cheap Again.

About the AuthorGR Wilson is to coaching as waiting tables is to acting. Between teams having emigrated from London to New York, every now and then he sits in his apartment, on thrift store furniture with a phenomenal view of the East River and types. His first book, "SEMI:PRO:AM: The Basketball Reality You Never Knew" chronicled the rollercoaster ride at the pinnacle of British Basketball during the turn of the century. That season saw him coach in 14 different countries during 80 games in just eight months. Thus sparking a growing interest in travel writing during the monotony of bus rides and airport delays that accompany professional second tier sport. Since then and having driven well over 10,000 miles of the USA including Route 66 and the Pacific Highway in a ford focus, hes also been driven around Australia in a Greyhound bus. So hes literally as qualified as the next man to write about it. Regularly among the top 1% of contributors to travel blogs with over 100,000 readers. His experience of moving to NYC in the balmy summer of 2013 have shaped his latest work. Which he insists will be all together more useful than his last book, which cornered the somewhat niche market of British Basketball and its 916 fans. So this book is the money saving combination of those three years he and his wife lived happily and busily on an average American salary in the Countrys most expensive city.
