Bruce Weber : O Rio De Janeiro: A Photographic Journal before purchasing it in order to gage whether or not it would be worth my time, and all praised O Rio De Janeiro: A Photographic Journal:

0 of 0 people found the following review helpful. ESCAPEBy shirazFinally added this to my book collection after so many years! Got it at a great price and the condition was not bad at all.This is Bruce Weber's best book shot all in Rio of course, in the 1980s. Lots of sexy, fun and images full of life and vitality, a trademark of Weber's work. This book reminds you of a great Summer season, full of days at the beach and fun times with friends. Love it!0 of 0 people found the following review helpful. Five StarsBy La Brea BooksThe Best Fashion Book!6 of 6 people found the following review helpful. blame it on rioBy BOYWAYThis is by far my favorite among Bruce weber's books. it is a beautifully edited collection of images from many different decades all involving some sensually stunning man or woman living a life of passion, be it sport or narcissitic pleasure. What makes this "bruce weber book "so special is that not all the photographs were shot by mr. weber, however all of them have caught his eye for more than obvious reasons. So it's really in his editing is where the fun lies. A big change is in the variety of males presented, not all are the usual silky-smooth northern european weber cliches. If you are at all intrigued by mr. weber's male and female ideals, you are sure to be delighted at this wonderfully light hearted and super sexy homage to the state of mind that is Rio ...and Brazil.The sepia tones further heighten the feeling of heat and sun-bleaching where the only way to escape

the sun is to give into an erotic adventure. An intoxicating fantasy created with the chicest taste.
