SwedenBy DJJOf Swedish Ways is an excellent book to inform about customs, etiquette and other things about Sweden. I have been to Sweden

and this book gives perfect instructions. Recently purchased copies via .com for all of my nieces. They are pleased.2 of 2 people found the following review helpful. An good read.....By MalverniamanAn interesting read to discover more about Swedish customs and the Swedish people. I thought it needed a "updating." Still looking for another "more current" source.

Here is a book filled with the sights and sounds of a people steeped in a background of fine old traditions. It is a charming account of Swedish customs that goes beyond their democratic monarchy, their progressive social-welfare programs, their avant-garde movies, and their excellence of design.For Swedish-Americans this book will have special meaning: the joy of reminiscing about those traditions (some possibly forgotten) that enriched and helped shape their lives. For their children it is a journey to a world they may not know of first hand. And for the tourist it affords a unique behind-the-scenes look not to be found in travel books, and is certain to enhance the pleasure of their visit.

From the PublisherA unique, behind-the-scenes look at a wonderful country. Filled with the sights and sounds of Sweden not found in ordinary guidebooks.
