Frank Nuessel Ph.D. : On Target: Spanish for Healthcare Providers (On Target Audio CD Packages) before purchasing it in order to gauge whether or not it would be worth my time, and all praised On Target: Spanish for Healthcare Providers (On Target Audio CD Packages):

0 of 0 people found the following review helpful. not recommendedBy PThis cd consists of words and phrases read in english immediately followed by the same phrase in spanish. There is almost no gap between one phrase and the next - certainly not enough to repeat the phrase or to think about what you are hearing. If you are using it with the book as a guide to pronunciation then that is what you have - no more no less. But as a stand alone teaching aid this is totally

worthless.0 of 0 people found the following review helpful. There are no pauses in the audio disk to practice ...By Customer
There are no pauses in the audio disk to practice saying the spanish words. It just blows through reading the packet.... Not very effective.0 of 0 people found the following review helpful. Good for listening to in the car on the way ...By Claire Anderson
Good for listening to in the car on the way to work. The pace was a little too fast though.

A mini-phrasebook and an audio compact disc are handsomely packaged in a set that is designed to help non-Spanish-speaking medical personnel communicate with Hispanics who have little or no English but need medical help. The phrasebook presents English and Spanish words and phrases categorized according to different medically-related subjects. Body parts, names of diseases, types of injury, and surgical procedures are just a few of the subjects in which English phrases are matched with their Spanish equivalents. The compact disc closely follows the written text and offers guidance in pronunciation and listening comprehension. Here is an ideal aid for doctors, nurses, paramedics, hospital and clinic receptionists and administrators, and others who speak no Spanish but frequently deal with Spanish-speaking patients.
