Avoiding the draft and Vietnam were two strong reasons to attend college. Martin Luther King, Jr. and Bobby Kennedy were assassinated. The

political world was a mess. And yet, amid the chaos and craziness, a new generation had its music, a rebellious culture and a vibrant peace movement to help it deal with transitions and turmoil. In 1968, Tom Leech took to the road making his round-the-world journey lasting nearly six-months as he visited 27 countries. *On the Road in '68* is a wonderful personal account of what it was like to be young, free and open to new possibilities as he explores a new world and escapes the madness of America! You'll enjoy this book as Tom shares his adventures, stories and brings back memories from an era when a new generation was empowered to be free and see the world in a different light. 0 of 0 people found the following review helpful. 1968 -- A Year to Remember By Sondra Thiederman It is not unusual for my now 38-year-old daughter to say with envy something like, "Gee, Mom, so many exciting and important things happened when you were young, I wish I'd been there to witness them." Well, thanks to the expert writing skills of Tom Leech, now she can. Calling on his very personal travels, and those of his companion Jim Butler, Tom paints a picture of beauty and turmoil and adventure that makes the rest of us -- who may also have seen the Pyramids of Egypt, but not quite in the same way -- want to get off our chairs and venture out to see if what Tom and Jim saw is still there in all its intrigue and excitement. Beware -- this captivating volume might just cost you a big chunk of those hard-earned frequent flyer miles. 0 of 0 people found the following review helpful. Return trip By Paul R. Sullivan On the Road in '68: A World of Turmoil, A Journey of Friendship Reading Tom Leech's journey around the world brings back many wonderful memories of travels to the same or similar places. Tom writes as though he is giving a guided tour and personal introduction to his closest friends. The days of packing up and seeing so many sights in a single trip may be impossible for most people today, but the opportunity to experience the thrill and eye-opening education of travel through Tom's words is something you don't want to miss.

The year 1968 has been marked by many observers as the most frenetic year of the last half-century, with confrontations and violence that occurred worldwide. In that same year Tom Leech was on the road, making his a round-the-world journey of nearly six-months and 27 countries visited. Now, four decades later, he reviews month-by-month that tumultuous year 1968, from the perspective of a curious travelers experiences, complemented by those of many friends from back then, also on the road in 68. From Tom Fenton, International Columnist, PRIs The World and former International Correspondent, CBS News: I was a foreign correspondent in 1968, and Tom Leech's account of his trip around the world is a time machine that takes me back to the world as it was then. It is more than travel writing. Its a personal account of what it was like to be young and on the road in a year that made history, and a reminder of how much the world has changed since then.
