This is the first complete English-language guide to exploring the mountains of the accessible but mysterious country of Andorra. Andorra, a tiny nation tucked away between France and Spain, is the country of the Pyrenees. This new guide is written by an experienced guiding and writing team, and details 60 routes throughout the country. The routes include numerous routes with scrambles and straightforward peaks, plus some via ferratas and the week-long Andorra Circuit trek. Andorra is a rapidly developing walking and summer destination, easily accessible from the UK. With 80 mountain lakes and a host of elegant peaks the principality offers a breathtaking range of walks in a compact area. With inexpensive accommodation, an excellent bus service, adequate maps and cheap food, it is an inviting destination.
