Stewart Edward White : The Mountains before purchasing it in order to gage whether or not it would be worth my time, and all praised The Mountains:

The Shelf2Life Mountaineering Collection provides a unique glimpse into the history and evolution of mountaineering

through the late 19th and early 20th centuries. From historical maps, first-hand accounts of early summits, descriptions of peaks and wilderness areas to detailed mountaineering proofs, enthusiasts can now experience the thrill of the greatest peaks as they were in the early part of the century. Further, in-depth discussions of traditional equipment, technique and routes are a fascinating study in the evolution of the sport. Given the recent explosion of interest in mountaineering, these books are an excellent opportunity to revisit the roots and origins of the sport: they offer a valuable historical perspective as well as important information about the landscape and geography of the past.
