Jean Michel Schwartz : The mysteries of Easter Island before purchasing it in order to gauge whether or not it would be worth my time, and all praised The mysteries of Easter Island:

Easter Island is famous for its 887 monumental statues. Nobody really knows who made those statues, or how or why. New Theories are being advanced, new studies made and new books published about this all the time. This is the only book that adequately explains how the giant statues were created and how they were transported. Basically, the statues were cut from the lips of the three volcanoes on the island. This still does not answer the question of how they were brought down to the water's edge.
