By A Customer We couldn't find anything really adventurous that we wanted to do on our honeymoon -- we'd read about scuba diving, snorkeling, paradsailing in travel articles, but we didn't find THE destination for us until we read through this book and found four or five great islands that were perfect. Even better, this book has a giant contact sheet, so it took us no time at all to get to the islands' Web sites and request info. So we're off to the Seychelles next summer for our honeymoon! We can always go to Belize or to Thailand on another vacation. This is a great book for anyone who wants to do something really original on their honeymoon...and then keep these suggestions around for future travel plans. This is one wedding book I'm not handing off to my other engaged friends! I'm keeping this one!
