Gift For YouThis book desperately needs a more comprehensive index (what's 5-10 pages more in such a thick book?). As is, it's not very user-friendly with such a basic index. I wasn't able to locate some very popular areas while in Costa Rica, even after

thumbing through that entire section of the book. I tried to use the book in three different Central American countries but got so frustrated that I finally purchased Lonely Planet on my Kindle. 0 of 0 people found the following review helpful.
