Great book, used for a month btwn Belize Panama By jesuisxtc Great book, covers each country in Central America in enough detail for a month long trip that I took during Dec/Jan 2012/2013. Looked at this and the Lonely Planet in a store, and this seemed to be much better for what I wanted out of a travel book. Good detail on all the capitals, only wished there was more on things like snorkeling companies in

Belize and things like that. For that information, go to a website like tripadvisor and see which company is the highest rated. 0 of 0 people found the following review helpful. Wonderful Information! By seakayaker Better than I expected. Covered more countries than I thought it did. As it turned out, that has been very helpful. I am happy with the book. It is hard to find budget travel information that covers almost everything. 0 of 0 people found the following review helpful. Helpful guide By N. Hartwell Generally decent ...needed this to cover the 4 countries we were traveling through.
