Rough Guides : The Rough Guide to Chile Map (Rough Guide Country/Region Map) before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Rough Guide to Chile Map (Rough Guide Country/Region Map):

2 of 2 people found the following review helpful. Only good for overview purposes
By Duncan
Generally I like the Rough Guide map series, but I think the unique geography of Chile did them in on this one. While the map provides a good overview of the entire country, Chile's immense length makes the overall maps too generic and there are insufficient detail maps for key areas like Santiago. I would buy other Rough Guides maps in the future, but I would not buy this one again if I had it to do over.
0 of 0 people found the following review helpful. Five Stars
By William T. Mccarvill
quality was as expected, very good
0 of 1 people found the following review helpful. Looks OK
By S. Aronson
It looks like it gives a good overview for driving in Chile. I have not assessed its accuracy.

Chile is one of South America's most varied and spectacular countries. The Rough Guide Map Chile combines clear modern mapping and bang-up-to-date research and is an essential companion to anyone travelling by public or private transport. The Rough Guide Map provides invaluable information for those exploring the country, from the Lake District's volcanoes to the Central Valley's vineyards, with detail on everything from road numbers and petrol station locations to national parks and railway lines.
