Five StarsBy CustomerGreat guide book, we used this in addition to trip advisor.5 of 5 people found the following review helpful. Good Layout and Easy to FollowBy L. HendricksonI have found Rough Guides easy to use, with more detail than is often found in other guidebooks, and this guide to Chile is no exception. I have been reading the 2015 library copy, and realize I should really have this book in hand on my upcoming trip, especially since I usually tear my books apart and take only the sections for the areas I plan to visit. I especially like the city and region maps. I've also found that the Kindle editions are just not as easy to navigate, much as I hoped I could save luggage weight with them. Better to fold up a few pages to take out on the street, especially if you are not paying roaming charges or may not even have a phone along. I also like the overviews in the contexts sections of history, landscape and environment, music, literature and cinema.
