Dilwyn Jenkins : The Rough Guide to Peru before purchasing it in order to gage whether or not it would be worth my time, and all praised The Rough Guide to Peru:

2 of 2 people found the following review helpful. Excessively Large but Comprehensive By C. Sham In a country where Google Maps is just starting to branch out of the big cities, the Rough Guide to Peru helps point you in the direction of good food, a nice place to stay, and some reasonable historical information about the various sites you might visit. It offers enough information about each city that you can plan out your day (or even entire trip) based on

the information here. The intro sections to each region and city are good summaries of the history and attitudes that have resulted in present-day Peru. While a local guide to something like Machu Picchu would certainly know more precise details, what you'd be able to remember afterwards is about the same content found in the Guide. Unfortunately, and perhaps not many travel publishers consider this, but the book is thick and heavy. It covers all of Peru, sometimes in excruciating detail, and as such I found myself unwilling to cart it around the city in my daypack on the off-chance I might want to pull it out to understand more about some church or government building. I'm not slamming the accuracy of the information (which is around the usual standards, though restaurants do often move and I found it was fairly easy to find better local ones just by talking around). It's just that I'd rather do the research at the hostel/hotel room and then just roll with it the rest of the day. Because carting this thing around 'just-in-case' isn't worth the effort. And that's why I knock it down a star. 6 of 6 people found the following review helpful. Good Guide for Peru By Willard F. Smith My wife and I went to Peru in December 2012, used this guide, and found it helpful and informative. Cuzco and Lima sections were great and up to date. Section on Trujillo was good but sent us to a few restaurants that had been closed for quite some time, so 4 stars. 0 of 0 people found the following review helpful. Great condition, useful By Niky sama Great condition, useful, took it to Peru even though it was on the heavy side. I used it as a table book at the hotel to reference it at night for the next day.

The Rough Guide to Peru is the ultimate travel guide to this fascinating country, with full-color maps and detailed coverage of all its regions. Discover Peru's highlights with expert information on everything from hiking the Inca Trail and wildlife-spotting in the Amazon rainforest to shopping for souvenirs in vibrant markets and seeking out the best restaurants for ceviche. This newly updated guide includes insider reviews of the best hotels, bars, clubs, shops and restaurants for all budgets, as well as stunning photography that brings it all to life. Make the most of your time with The Rough Guide to Peru.
