She had just published this book. It's not a new publication but remains one of the better books written on the Saudis and includes a lot of historical information, definitely an eye opener. I recently bought this book to give to a friend.0 of 0 people found the following review helpful. Informative and enlightening!By A. MartinAlthough the book was written years ago and some of the numerical data is incorrect, the insights and revelations that this overview of life and culture in Saudi is very revealing and significant. I found it very helpful in dealing with my Saudi clients and students. I would highly recommend this reading to anyone with an interest in the Middle East.0 of 0 people found the following review helpful. Good ReadBy Garth H HolmesA very vivid and intense history of the Saudi Arabian area and its people.
