At this point in the series, we are familiar with the characters' personalities and strengths, and we fell in easily with their next adventure, running alongside their dogsleds as they headed north. Talk about a great book for female characters - the future of the whole group rests on Narua's and Solvi's daring rescue! We want the last Inuk Quartet!0 of 0 people found the following review helpful. After the long, dark winter, Leiv, Narua, Apuluk and Solvi are ready for adventure. They decide to head north with two dogsled teams to see if they can make it across the ice to Helluland (modern Baffin Island). But when a terrible blizzard and a shocking kidnap disrupt their journey, the four young travelers must use courage and quick thinking to get themselves home.
