Beautiful GuideBy Gianni ContiThis guide I would not recommend instead of lonely planet or framers, but as a supplemental guide, just in case you do not have a spiritual guide accompanying you on your trip to Israel. It's also a great coffee table book.

The Spiritual Roots of the Holy Land takes you on a wondrous journey through the land of Israel. As you take in the breathtaking pictures, another layer of the age-old country is revealedthe ebb and flow of spiritual forces that have shaped the curvy landscape that is sacred to billions of people around the world. Also included are Israel roadmaps to help you locate each place you visit in mind or in body.
