Lots of areas but expected more details By Andrew Marquis This book lists a lot of different areas and mountains, but does not give detailed descriptions for a lot of the climbs, especially the one on the cover of the book, only about a 1/4 of a page which leaves too much guesswork if you are actually trying to climb it. 0 of 7 people found the following review helpful. Everything O.K. By Jiri Soukup Thanks for delivery of this amazing book. It came without any problem and surprisingly early after my order was done :-)))

This, the latest volume in Cicerone's World Mountain Ranges series, is a unique planning resource for anyone preparing to explore the mountains of the Swiss Alps, providing all the information needed for a variety of mountainous pursuits - walking, hiking, climbing or ski mountaineering. Covering each mountain area in Switzerland, the guide describes all the country's major peaks, passes and valleys to help readers choose the best locations to indulge their love of the outdoors. There is comprehensive information on all the key centres: Grindelwald, St Moritz, Zermatt and many, many more. Detailing access, accommodation and facilities in valley bases as well as pinpointing mountain huts, all the necessary information on where to stay is included. Classic walks and climbs in all areas are identified and major hut-to-hut trekking routes are outlined. Although aimed at outdoor enthusiasts of all standards, the guide gives climbing grades where appropriate and multi-day hiking routes are also outlined for the more experienced. A well-illustrated guide with scores of expertly-drawn maps, this is the essential guide for active visitors to one of Europe's most mountainous countries.

About the Author Kev Reynolds is a freelance writer, photojournalist and lecturer. A prolific compiler of guidebooks, his first title for Cicerone Press appeared in 1978; he has since produced 27 titles for Cicerone, with others being researched. A member of the Outdoor Writers' Guild, the Alpine Club and Austrian Alpine Club, his passion for mountains and the countryside remains undiminished, and he regularly travels throughout Britain to share that enthusiasm through his lectures.
