Without a doubt, get the 3 county instead of the single King county map. It's big, but it's effective. Load the free cd in your computer too. 0 of 0 people found the following review helpful. A Good Navigational Tool By Shaun

EdwardsI decided not to go fancy, and buy a GPS navigation system. However I wanted a reasonably compact map book that I could carry in my truck. I drive mostly in Pierce County. I gave this map book a five because it illustrates all the local roads, and points of interest, at a fine level of detail. I use this all the time to look for shortcuts or to route around traffic jams and construction. Even if I had GPS navigation, I would still keep this book as a backup.
