Good, practical, comprehensive map book By Maria Glanz When we moved to San Diego, the SD Thomas Guide was the first thing we bought. When we moved back home to Seattle, we got this, the most recent Puget Sound guide. They are my husband's favorite things. I like them, too - I like looking up things on maps, following along as we drive. We are not GPS users, we don't like things that talk to us in cars - we always choose trusty Thomas. 1 of 1 people found the following review helpful.
