Paper GPSBy Harlem RoseI've always liked Thomas Guide, and this map is no different. Towards the back it includes a reference section for things like hospitals, shopping malls, schools, etc. It's very easy to read, and the street names are a good size. I keep it in my car for those emergency times where I don't know exactly how to get somewhere, since I don't have a GPS system, or a smartphone. I love how easy it is to navigate.3 of 3 people found the following review helpful.
