Although I have GPS, I wanted something that I could sit down with so I could acquaint myself with the community around me as well as get a perspective on 'the lay of the land.' I love this thing! It sounds dumb, but I was so surprised to look at the map and see that our street angled the way it did - no wonder I would get off-track when I drove somewhere without the GPS on! I found nearby parks, accesses to the river near us,

lightrail stations, etc. Things that I just wouldn't have known about without driving around and bumping into them or looking up each one specifically. Who knew maps could be so wonderful? (Besides Lewis Clark, of course...) 1 of 1 people found the following review helpful. Great Product if you can find it at a reasonable price. The Thomas Guide Sacramento County Streetguide By Helen Thank you for the Thomas Guide Sacramento. It's just what I needed. I can't find Thomas Guides in retail or wholesale stores as I formally did
