**Alan Grainger : The Tree That Walked** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Tree That Walked:

Interesting Story, Poorly edited!By CustomerWhereas Grainger's Puruvian adventure with his wife held my interest and I appreciated the fact that it was not overly drawn out, as a grammarian I was rather taken aback by the sloppy editing...words left out and poorly constructed sentences. It was my first book chosen to read on my new iPad, and I was not certain that I would enjoy reading a book in this manner. So part of my being drawn to it was the price! Silly, I know!

A chatty personal account of the unlikely adventures of an Old Age Pensioner and his wife, who nearly bit off more than they could chew, in Peru.
