Highly entertaining in a comfortable, conversational tone.0 of 0 people found the following review helpful. No useful informationBy J. ConleyVery dated and obviously self-

published, yet a light and somewhat fun read.

Bob White started out as a young man, with an idea that he could do a 25,000 mile road trip from the Arctic to the bottom of the earth across the Straits of Magellan to the southern most place on earth where people live. Fifty years ago, before there was a road, he made this epic journey; encountering bull fights, bandits, bullets, and bad roads, and finally ending as a MAN. One will enjoy riding with him in his old Chevy pickup, as he drives "The Trip".
