by some that Crisy is not a seasoned writer; I found her books to be educational, entertaining and profoundly honest and in my opinion; very well written. When you can read something and it seems like you are right there with them; that's an accomplishment aspired by many want to be writers. My applause to them both; for their courage in making their dream a reality...GREAT job...Lots of love and thanks to them both. One last note: If you have never been on the open ocean and want to know what it's like; you'll appreciate this read...It is in my library, right next to Chapmans Seamanship and Handling. 1 of 1 people found the following review helpful. First half great then it wound down  
By Customer I bought this book for my husband. Initially he loved it and then began to say it was getting boring. He wanted stories of passage making and boat stuff. Although he read excerpts to me that he found numerous and interesting his overall comment was that the book is more from a female perspective. I think I'll read it myself and do another rating as I got the impression he loved the book to start with. Must have been too much touchy feely stuff in it??

By Customer Very interesting

No one expected these thirty-something professionals to give up their successful careers to pilot their own small boat around the world, especially because they started with almost no boating experience. Instead of the expected sailboat, they chose a 43 foot trawler powerboat, which many believed was incapable of crossing oceans. Most people expected them to fail. But they surprised the skeptics when they successfully circumnavigated the globe in 2 years, visiting 110 places along the way in 34 countries. Part 2 of The Unexpected Circumnavigation journals Christi and Eric's travels to 21 fascinating destinations, ranging from popular to remote. You will feel what it is like to be on long sea passages, experience the local food and cultures and participate in unique tours and adventures, including Scuba, exotic animals, nature's 600 foot tall "secret rooms" and villages untouched by modernization. Learn about the challenges, rewards, and surprises that come with both traveling and boating.
