CustomerMost of the information is the same as last year's book but it does have some updated information. If you are in the planning stages for a cruise, then get this book and then buy the newest one for the year you actually plan to cruise when it comes out.2 of 2 people found the following review helpful. It has information for every cruise so you can skip a few sections if you want.I loved this book. Best book I've ever bought for preparing for a vacation. Amazing.
