Peter Shelton, Seth Masia, Bob Sehlinger, Lito Tejada-Flores : The Unofficial Guide to Skiing in the West before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Unofficial Guide to Skiing in the West:

5 of 5 people found the following review helpful. A detailed, informative, and sometimes opinionated guide. By A Customer An excellent guide covering most major ski resorts in the Western U.S. and some in Western Canada. The

guide contains a rating section that compares resorts on almost all imaginable skiing criteria (e.g., beginner terrain, bumps, consistency of fall lines, etc.), but its real strength is in the detailed descriptions of the skiing. Each author writes about one region, providing a thorough overview and a sense of the style of skiing available at each resort. There are some minor inconsistencies. Some resorts get almost agonizingly detailed treatments, while some (e.g., Whistler / Blackcomb) get a more cursory treatment than the sheer volume of terrain would suggest. The skiing suggestions are quite specific, naming lifts and runs (good), but the trail illustrations provided for each resort lack sufficient detail (bad)- I found that the book works best with an actual trail map in hand. Finally, one might argue that some worthy areas were overlooked, including some Canadian areas and at least one US area (Mount Baker, Washington). This guide is a must-have for any serious skier- I've used it to check out more than a dozen resorts, and Lito, et al. have yet to steer me wrong. 5 of 5 people found the following review helpful. Lots of details, could use more. By A Customer This is a really thorough book on just about everywhere out west in terms of ski mountain descriptions -- runs and the like. Whoever was in charge of editing the book's illustrations must not have seen the text, because although the illustrations show runs and lifts, only the lifts are labeled -- but the text usually mentions several runs in the context of a single lift, rendering the descriptions confusing and the maps somewhat useless. The descriptions of the ski areas themselves seem to be a little skimpy. The beginning of the book describes some of the "how-to" stuff in terms of getting good deals and the like, but doesn't go into enough detail about these kinds of things, specifically in reference to particular areas. Surely they must be familiar enough with major destination areas to suggest specifics. Overall, it's a good read, especially for those unfamiliar with out-west ski options. 0 of 0 people found the following review helpful. Most comprehensive guide. By A Customer If you are a ski fan (like me), and you are eager to ski in great West Coast ski resorts in California, Colorado, and Utah -- look no more. You get this book and you have all the information you need for a few years.

The renowned Unofficial Guides are trusted by millions of readers. No other series dares to be this candid. The Unofficial Guides are the Consumer Reports of travel guides. Every hotel and attraction is rated and ranked by a team of unbiased inspectors. Value-conscious and loaded with tips that help readers avoid wasting time and money, each guide is easy to use, with detailed descriptions of a wide range of hotels and restaurants in all price categories. Readers love the rating system used to objectively evaluate attractions, hotels, and restaurants. Handy charts demonstrate how each place stacks up against the competition. The Unofficial Guides contain the most honest evaluations of the Disney parks on the market (with each ride rated and given a suggested age group), and offer proven strategies for enjoying them with a minimum of hassle. Unofficial Las Vegas rates and ranks the casinos, and provides useful strategies for beating the odds. Each guide is tailored to provide convenience and insider advice on each destination, and addresses the needs of families, business travelers, and more by giving them the lowdown on what's really worth their time and money. Also included are accurate maps, plus detailed information on shopping, nightlife, sports, and more. Look for a contemporary new cover design on this fall's list!

.com In keeping with the Unofficial Guide philosophy, this book is written to serve the skier as the authors deliver the honest goods on more than 100 mountains and ski resorts. Want to find the best-formed moguls, make the first tracks in secret caches of powder, locate the best runs for novices, or reserve the perfect place to warm up at the end of the day? Reading this book--which has complete coverage of the northern and southern Rockies and the West Coast--is like sitting down with a local or a ski instructor. Scattered with useful tips like "Polishing Parallel," "Stormy-Day Strategies," and "Sierra Cement," The Unofficial Guide to Skiing in the West is sure to become a well-worn reference for skiers of all abilities. --Kathryn True From the Back Cover From the publishers of The Unofficial Guide to Walt Disney World...
