Bob Sehlinger, Liliane Opsomer, Len Testa : The Unofficial Guide to Walt Disney World with Kids (Unofficial Guides) before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Unofficial Guide to Walt Disney World with Kids (Unofficial Guides):

1 of 1 people found the following review helpful. Packed with useful info By Calamity Jane I thought this book was

extremely helpful for our trip with 2 4 yo kids. It is full of info that is directly relevant to taking children of various ages (from nursing babies to teenagers) to Disney. I particularly appreciated the detailed descriptions of potential fright-factors of various attractions. We also loved the top 10 snack list, although some of it was out of date. The touring plans are really smart. The chapters on the physical and emotional aspects of Disney family trips were awesome - I really found them helpful in managing expectations and planning our day to day to keep everyone from becoming tired and cranky. The book is small enough that you can carry it with you into the parks, and we referred to it throughout the day. Really added a lot to our trip.0 of 0 people found the following review helpful. Great book for planning your tripBy A. M. BrauschI have been using this book and the website that goes along with the book to plan my family's trip to Disney World this summer. It offers great ideas for planning in general, and very specific info for how to organize your time in each park. I will have to post again when we return to see how the plans worked for our family.0 of 0 people found the following review helpful. Bang for your buckBy John C. BonhageBook was helpful with planning out day with early and late risers. Very informative to help you plan out your day. Definitely worth the price to help you plan the day. Face it when you pay a lot for tickets you want to get the most out of it and this book definitely helped.
