Fun to plan your trip and read the hilarious descriptions of ridesBy JalexCuts your wait times by 45 minutes to an hour. Fun to plan your trip and read the hilarious descriptions of rides and the crazy people who do crazy things to ride them.1 of 1 people found the following review helpful. ExcellentBy Ramon JimenezExcellent reference guide. I have not gone to Disney yet (bought the book to plan the trip well in advance), but I've already changed many things and adjusted expectations based on the guide's content.While not meant to be read from cover to cover, it is indeed very readable. The readers' comments provide complementary and honest point of views, and I think the authors do a good job balancing different voices when choosing readers' comments to include.Another bright point, in my opinion, is effectively catering to a wide audience in terms of the financial and cultural spectrum. I am more of a cheapskate, and see Disney as a place where you can easily burn money but which nonetheless seems like an interesting experience to our family, focusing on what has made Disney famous. In this respect, I feel I'll get plenty of value from the guide, with effective money-savings plans and good touring plans to cover the basics. But there's also a lot of content there that seems to fit people both higher and lower than me on the financial scale and the breadth of interests and activities they'd may want to cram on their Disney trip.My only suggestion for improvement would be to make it more uniform throughout in terms of details and readability. I am clear that his behemoth has evolved over many years of updates, but all the same some sections are too long and detailed on stuff that's ancillary at best; this guide has the best primer in popping feet blisters I've ever seen anywhere, period! Conversely, some attractions are described in slightly less detail than I'd prefer.In

short, you could do much worse than plunge ten bucks into a guide that will SURELY help you make the most of your multi-thousand-dollar, triathlon-energy-demanding Disney trip! 0 of 0 people found the following review helpful. Get This Book!! By AZ Catman I think this book is a must have. Just one or two tips will make it worth the price. Its in-depth review of the Disney hotels enabled me to get the best room location at the Caribbean Beach Resort (for me, away from the food court, near a shuttle stop, and facing a courtyard.). The advice on where to watch the Fireworks at MK enabled us to get a great view and 'escape' quickly, beating the mass of people leaving afterwards and enabled us to be on the first shuttle back to the hotel--that alone was priceless! Countless other tips and info let us plan which attractions we wanted to see, where to eat, when to go, etc.. Try to get this book well before your vacation since it is worth reading thoroughly. BTW, it has a lot of humor in it that makes it easy and enjoyable to read. I'd also recommend purchasing getting the Touring Plans App and creating your own custom plan for each park visit. It updates your plan while you're at the park based on the crowds/lines. Not sure how it works, but we never waited more than 10 mins. in line, and we saw some big lines. It will seem like quite a headache pouring over all the info., but it will make your vacation a lot smoother and less stressful.

The most candid, comprehensive guide on the market to America's favorite family destination complete with proven strategies for beating the crowds and complete coverage of Disney's Animal Kingdom! This year with an earlier pub month than ever before!

.com In their "Declaration of Independence," the authors and researchers of this guide swear their allegiance to you, the consumer. "If a restaurant serves bad food, or a gift item is overpriced, or a certain ride isn't worth the wait, we can say so, and in the process we hope to make your visit more fun, efficient, and economical." And because they've found that "spontaneity and self-discovery work about as well at Walt Disney World as they do on your tax return," The Unofficial Guide to Walt Disney World is packed full of essential advice for anyone braving the frontiers of the mother of all theme parks. To help you decide what's most important for you and your family to see, this newly updated 1999 edition describes each attraction in detail and ranks them for different age groups based on interviews with more than 9,000 families. The book also covers when to go, the pros and cons of lodging outside "the World," hotel and restaurant ratings, field-tested itineraries, tips and warnings, planning strategies, and how to meet Disney characters. Humorous writing accompanied by cartoonist Tami Knight's satiric insights make this guide fun to read. Parks covered include the Magic Kingdom; Epcot; Disney's Animal Kingdom; The Disney-MGM Studios; Universal Studios Florida; Sea World; area water-theme parks; and a section called "Beyond the Parks," which delves into other various Disney offerings like golf (mini and maxi), a speedway, and Discovery Island. --Kathryn True "In the Disney world, there is one source of information revered and trusted above all others. (The Unofficial Guide to Walt Disney World)." Paul Gauder, WDW Family Style. "If you're looking for a reliable guidebook, the leader is the Unofficial series." The Mail (London) "A Tourist's Best Friend!" --Chicago Sun-Times "Indispensable" The New York Times "The Unofficial Guide is, without question, one of the best Disney travel guides available."
