**Stephanie Turnbull, Emma Helbrough : The Usborne Children's World Atlas: Internet Linked** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Usborne Children's World Atlas: Internet Linked:

0 of 0 people found the following review helpful. Usborne Children's World Atlas: Internet Linked By BetsyI was very pleased with my purchase of this children's atlas. It is full of maps of all sorts, information, and is presented in a colorful format that is enjoyable to the eye. This book was a gift. I do not know if they used the internet linked information yet. I highly recommend this atlas and would purchase it again. 1 of 1 people found the following review helpful. Five Stars By Splash51 The entire Usborne collection is fantastic.

A modern world atlas with 60 pages of maps. An introduction to each continent, highlighting important geographical

features. Satellite photography of the Earth's most dramatic landscapes. Useful information about making and using maps. A gazetteer of facts about the countries of the world. A wide range of recommended websites. 144 pages.
