Also very helpful for hospital, convalescent, or hospice situations where patient is unable to speak or speak clearly. Also for children as a learning tool. I used it to locate eyeglass repair, communicating that I do not eat red meat, and to determine how hot the spice was on menu items!! Fits in a pocket and now even more conveniently on my smart phone - making it easy to find and use!! Cool tool.1 of 1 people found the following review helpful. great for travelBy virginia p.very clear and compact with good images. We had something similar in the past which we used frequently on international travel. We gave it to an international host and bought this as a replacement. Great to communicate when you don't share a language5 of 5 people found the following review helpful. do you know????By RoniNeat little pamphlet with pictures of the many common items a person traveling might need. Just point to the picture of bathroom and the other person can show you what you need.

It is a unique triumph for us to present a travel book that helps you communicate without words! All you need to do is point at the icons contained in this inventive little book, and you'll be able to speak a foreign language and be understood. Encased in a sturdy clear plastic jacket for easy travel.

A fan who uses the book wrote to the paper claiming it's "The best item any traveler could acquire." -- San Diego Union-Tribune.About the AuthorJonathan Meader is an artist/author now living in Northern California.
