**From Brand: Hammond Incorporated : The World Almanac Notebook Atlas** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The World Almanac Notebook Atlas:

1 of 1 people found the following review helpful. Don't expect a real atlas! By Brainsparkles I returned this "Atlas" as it was not at all what I was looking for. A very thin volume with a few maps; you could find more detailed maps practically anywhere, including online of course. I can't say much about the almanac section of this booklet (and I mean "booklet", not "book"), as I was so disgusted with the meager atlas that I decided to mail it back ASAP. I can't even recommend this for children, as they will learn little about anything except for where the broadest outlines of countries exist. This item is not very expensive, but I felt it was overpriced for something presenting so little information. I subsequently bought a very recent, very detailed atlas from an marketplace seller for about \$22-. It was used, but in perfect condition as it was from a library in Canada. You can get something great, that doesn't cost as much as the Oxford Atlas (which costs ~\$150-, if I remember correctly); don't bother with a cheap booklet. 2 of 2 people found the following review helpful. Great teaching aid By Kim Boykin This handy and inexpensive world atlas is about

the size of a magazine and is three-hole-punched so that it can be put in a three-ring binder. It includes about 25 pages of maps and about 25 pages of basic facts about the nations of the world, including population, area, capital city, principal language(s), chief religion(s), and political leader(s). This atlas was a required text in some of my college courses on world religions. I've discovered that, like me, the majority of my students were never taught much geography, and they actually appreciate being expected to fill in this gap in their knowledge of the world. Another great geography teaching aid is this inflatable globe. 8 of 9 people found the following review helpful. Great teaching aid

By Kim Boykin This handy and inexpensive world atlas is about the size of a magazine and is three-hole-punched so that it can be put in a three-ring binder. It includes about 25 pages of maps and about 25 pages of basic facts about the nations of the world, including population, area, capital city, principal language(s), chief religion(s), and political leader(s). The atlas is updated every year. This atlas was a required text in some of my college courses on world religions. I've discovered that, like me, the majority of my students were never taught much geography, and they actually appreciate being expected to fill in this gap in their knowledge of the world. Another great geography teaching aid is this inflatable globe.

Specially bound to slip into a looseleaf notebook, the 2009 edition of the World Almanac Notebook Atlas reflects the most current political status of each country. Features:

- \* 24 pages of full-color, digitally precise, easy-to-read political maps.
- \* 28 pages of current, compelling facts and figures about the nations of the world from the World Almanac Book of Facts, including the latest population figures, capital city, principal languages, heads of state and useful tourism websites.
- \* Easy-to-use world map index, including countries, major cities, towns, and physical features of the region, such as deserts, lakes and mountains.

About the Author Since 2000, Hammond, American Map, Langenscheidt Dictionaries, Insight travel Guides, Delorme - the famous names in the Langenscheidt family. These represent the most authoritative, up-to-date, and extensive travel and reference products available. In January 2003, the renowned Berlitz Publishing became part of the Langenscheidt Group.
