National Geographic Maps - Trails Illustrated : Theodore Roosevelt National Park (National Geographic Trails Illustrated Map) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Theodore Roosevelt National Park (National Geographic Trails Illustrated Map):

1 of 1 people found the following review helpful. the best By B. Bates These "Trails Illustrated" maps are some of the best out there. Somewhat moisture proof for damp conditions without ruining them. Also I like the old fashioned folding maps because they are easier to carry and stow out of the way when not needed. Very detailed and informative.

Waterproof Tear-Resistant Topographic Map Expertly researched and created in partnership with local land management agencies, National Geographic's Trails Illustrated map of Theodore Roosevelt National Park includes both the north and south units of the park, as well as the Magpie and Elkhorn section of the Little Missouri Grassland. In the North Unit of the park, the map includes the Maah Daah Hey Trail, Little Mo Nature Trail, Caprock Coulee Nature Trail, Buckhorn Trail, Achenbach Trail, and Juniper camping area. The Maah Daah Hey Trail then winds south through the Little Missouri National Grassland, meeting Bennett Trail, then passes into Magpie, then Elkhorn, then into the South Unit of Theodore Roosevelt National Park. Map features in the South Unit include Ridgeline Nature Trail, Coal Vein Nature Trail, Buck Hill Trail, Wind Canyon Trail, Jones Creek Trail, Paddock Creek Trail, Talkington Trail, and the Petrified Forest. Also included in this portion of the map is Buffalo Gap Trail, Roundup Horse Camp, Cottonwood, Painted Canyon, Sully Creek State Park, and the town of Medora. The clearly marked trails include mileage between intersections and trail summaries provide distance and difficulty for suggested hikes. Helpful material about the park, backcountry use, agency contact information, and safety tips will prove invaluable in your exploration of the park. The map base includes contour lines and elevations for summits and passes. Some of the many recreation features include campgrounds, trailheads, interpretive trails, points of interest, horse camps, and river access. Every Trails Illustrated map is printed on "Backcountry Tough" waterproof, tear-resistant paper. A full UTM grid is printed on the map to aid with GPS navigation.
